Chapter 19 : The Postwar Boom :

Section 4: The Other America

First published in 1962, Michael Harrington ' s The Other America is a stark and brutally honest portrayal of endemic poverty amidst rising prosperity in post-WWII America. Almost 60 years on, this book still resonates, as many of the ills described still linger, and in fact have morphed into different struggles with the rise of drug epidemics and migrant crises.

Recent research on inequality and poverty has shown that those born into low-income families, especially African Americans, still have difficulty entering the middle class, in part because of the disadvantages they experience living in more dangerous neighborhoods, going to inferior public schools, and persistent racial inequality. *Coming of Age in the Other America* shows that despite overwhelming odds, some disadvantaged urban youth do achieve upward mobility. Drawing

from ten years of fieldwork with parents and children who resided in Baltimore public housing, sociologists Stefanie DeLuca, Susan Clampet-Lundquist, and Kathryn Edin highlight the remarkable resiliency of some of the youth who hailed from the nation ' s poorest neighborhoods and show how the right public policies might help break the cycle of disadvantage. Coming of Age in the Other America illuminates the profound effects of neighborhoods on impoverished families. The authors conducted in-depth interviews and fieldwork with 150 young adults, and found that those who had been able to move to better neighborhoods—either as part of the Moving to Opportunity program or by other means—achieved much higher rates of high school completion and

college enrollment than their parents. About half the youth surveyed reported being motivated by an “ identity project ” —or a strong passion such as music, art, or a dream job—to finish school and build a career. Yet the authors also found troubling evidence that some of the most promising young adults often fell short of their goals and remained mired in poverty. Factors such as neighborhood violence and family trauma put these youth on expedited paths to adulthood, forcing them to shorten or end their schooling and find jobs much earlier than their middle-class counterparts. Weak labor markets and subpar postsecondary educational institutions, including exploitative for-profit trade schools and under-funded community colleges, saddle

some young adults with debt and trap them in low-wage jobs. A third of the youth surveyed—particularly those who had not developed identity projects—were neither employed nor in school. To address these barriers to success, the authors recommend initiatives that help transform poor neighborhoods and provide institutional support for the identity projects that motivate youth to stay in school. They propose increased regulation of for-profit schools and increased college resources for low-income high school students. *Coming of Age in the Other America* presents a sensitive, nuanced account of how a generation of ambitious but underprivileged young Baltimoreans has struggled to succeed. It both challenges long-held myths about inner-city youth and

Presents the original report on poverty in America that led President Kennedy to initiate the federal poverty program

Shortly before his assassination, Martin Luther King Jr. called for a radical redistribution of economic and political power to transform the whole of society. In 1967, he envisioned and designed the Poor People ’ s Campaign, an interracial effort that was carried out after his death. This campaign brought together impoverished Americans of all races to demand better wages, better jobs, better homes, and better

education. King and the Other America explores this overlooked and obscured episode of the late civil rights movement, deepening our understanding of King ' s commitment to social justice and also of the long-term trajectory of the civil rights movement. Digging into earlier radical arguments about economic inequality across America, which King drew on throughout his entire political and religious life, Sylvie Laurent argues that the Poor People ' s Campaign was the logical culmination of King ' s influences and ideas, which have had lasting impact on young activists and the public. Fifty years later, growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign. This book draws the connections between

Guerraoui's daughter Nora, a jazz composer returning to the small town in the Mojave she thought she'd left for good; her mother, Maryam, who still pines for her life in the old country; Efraín, an undocumented witness whose fear of deportation prevents him from coming forward; Jeremy, an old friend of Nora's and an Iraqi War veteran; Coleman, a detective who is slowly discovering her son's secrets; Anderson, a neighbor trying to reconnect with his family; and the murdered man himself. As the characters—deeply divided by race, religion, and class—tell their stories, each in their own voice, connections among them emerge. Driss's family confronts its secrets, a town faces its hypocrisies, and love—messy and unpredictable—is born. Timely,

Uniting critical writing on novels, poetry, painting, and ritual, this volume takes a regional approach to the cultures of the Caribbean Basin. Ranging across the linguistic spectrum of the area, it examines cultural production from the Anglophone, Francophone, and Hispanophone islands, Suriname and the Guyanas, and 'Latin' and Central America. The interdisciplinary nature of the collection and the challenge it poses to the balkanization of the region within academic discourse will make it of especial interest to students and scholars of the

Caribbean. Inspired by the category of the 'Other America' as developed by Édouard Glissant, the book offers a series of original and stimulating engagements with topics that include nationalism, migration and exile, landscape and the environment, gender and sexuality, and Postcolonial Studies and 'world literature'. In addition to contributions by leading scholars such as Peter Hulme, Theo D'haen, and Lizabeth Paravisini-Gebert, it contains interviews with two renowned novelists from the region, Lawrence Scott and Mayra Santos-Febres. Underpinning the collection is an interrogation of received ideas of the nation-state and a suggestion that regionalism might provide a better optic through which to view the circum-Caribbean – that national

Finally, *Rediscovering the Other America: The Continuing Crisis of Poverty and Inequality in the United States* suggests strategies for changing public perceptions about the nature of poverty and the poor. From the editors: " In 1962, Michael Harrington published *The Other America*, which documented how deeply entrenched poverty and inequality were in one of the wealthiest countries in the world. Four decades later, we find it necessary once again to rediscover this profound social condition. The purpose of this book is to awaken policymakers and the public to this
