Publisher Description

In this overview of twentieth-century American poetry, Jennifer Ashton examines the relationship between modernist and postmodernist American poetics. Ashton moves between the iconic figures of American modernism - Stein, Williams, Pound - and developments in contemporary American poetry to show how contemporary poetics, specially the school known as language poetry, have attempted to redefine the modernist legacy. She explores the complex currents of poetic and intellectual interest that connect contemporary poets with their modernist forebears. The works of poets such as Gertrude Stein and John Ashbery are explained and analysed in detail. This major account of the key themes in twentieth-century poetry and poetics develops important ways to read both modernist and postmodernist poetry through their similarities as well as their differences. It will be of interest to all working in American literature, to modernists, and to scholars of twentieth-century poetry.

In the years between the beginning of the twentieth century and the end of World War II, American poetry was transformed, producing a body of work whose influence was felt throughout the world. Now for the first time the landmark two-volume Library of America anthology of twentieth-century poetry through the post-War years restores that era in all its astonishing beauty and explosive energy. This first volume of the set, organized chronologically by the poets' birthdates, takes the reader from Henry Adams (1838-1918) to Dorothy Parker (1893-1967), and in the process reveals the unfolding of a true poetic renaissance. Included are generous selections from some of the century's greatest poets: Edwin Arlington Robinson, Robert Frost, Wallace Stevens, William Carlos Williams, Marianne Moore, H.D., Ezra Pound, T. S. Eliot. Here they are seen as part of an age that proposed new and often contentious definitions of what American poetry could be and fresh perceptions of a society undergoing rapid and often tumultuous change. The multifarious aesthetic influences brought to bear-Chinese and Japanese poetry, the African-American sermon, the artistic revolutions of Cubism and Dada, the cadences of jazz, the brash urgencies of vernacular speech-resulted in a poetic culture of dynamic energy and startling contrasts. The poets of this era transformed not only style but traditional subject matter: there are poems here on a silent movie actress, a lynching, the tenements of New York, the trench warfare of World War I, the Russian Revolution, and the landscape of Mars. Here too are folk ballads on events like the assassination of McKinley and the sinking of the Titanic; popular and humorous verse by Don Marquis and Franklin P. Adams; the famous "Spectra" hoax; song lyrics by Ma Rainey, Joe Hill, and Irving Berlin; and poems by writers as unexpected as Djuna Barnes, Sherwood Anderson, John Reed, and H. P. Lovecraft. Included are some of the century's most important poems, presented in full: Pound's Hugh Selwyn Mauberley, Eliot's The Waste Land, Steven's Notes Toward a Supreme Fiction. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. "This is a major book for the field of contemporary Latin American poetry, original in its scope, depth, and breadth.... It is a showcase of recent currents of expression in Latin America." -Jacobo Sefamí, Associate Professor of Spanish and Portuguese, University of California, Irvine Has poetry lost its relevance in the postmodern age, unable to keep pace with other forms of cultural production such as film, mass media, and the Internet? Quite the contrary, argues Jill Kuhnheim in this pathfinding book, which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time. Using a variety of interdisciplinary approaches, Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images; grapples with issues of ethnic, national, sexual, and urban identities; and incorporates rather than rejects technological innovations and elements from the mass media. Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy, modernization, immigration, globalization, economic shifts toward neoliberalism and informal economies, urbanization, and the technological revolution have been expressed in-and even changed the very form of-Spanish American poetry since the 1970s.
