Shortlisted for the 2016 Giller Prize Selected for Indies Introduce Summer/Fall 2016 Catherine Leroux's first novel, translated into English brilliantly by Lazer Lederhendler, ties together stories about siblings joined in surprising ways. A woman learns that she absorbed her twin sister's body in the womb and that she has two sets of DNA; a girl in the deep South pushes her sister out of the way of a speeding train,

losing her legs; and a political couple learn that they are non-identical twins separated at birth. The Party Wall establishes Leroux as one of North America's most intelligent and innovative young authors. Catherine Leroux was born in 1979 in Montreal, Quebec, where she continues to live and write.

Detective Harry Bosch was sure he'd shot the serial killer responsible for a string of murders in LA . . . but now, a new crime makes him question his convictions. The Dollmaker was the name of the serial killer who had stalked Los Angeles ruthlessly, leaving grisly calling cards on the faces of his female victims. Now with a single faultless shot, Detective Harry Bosch thinks he has ended the city's nightmare. But the dead man's widow is suing Harry and the LAPD for killing the wrong man-- an accusation that rings terrifyingly true when a new victim is discovered with the Dollmaker's macabre signature. So for the second time, Harry must hunt down a death-dealer who is very much alive, before he strikes again. It's a blood-tracked quest that will take Harry from the hard edges of the L.A. night to the last place he ever wanted to go-- the darkness of his own heart. With *The Concrete Blonde*, Edgar Award-winning author Michael Connelly has hit a whole new level in his career, creating a breathtaking thriller that thrusts you into a blistering courtroom battle-- and a desperate search for a sadistic killer.

Sarah Bartlett was an Academy Award-nominated film star, an Emmy-nominated television actress and a Tony-nominated stage performer. She was also awarded her very own Varsity Jacket by the former director of the US Department of Music's Federal Hip Hop Administration. Appearing in over 20 films (including *Hearts of Sorrow*, *Hearts of Celery*; *Perkwit's Secret Bramboráky* (the fourth installment of the *Blurg* movies), and *Shadow of the Fish*), she also starred on stage in such shows as *Howling at the Moon: The Dog Musical*; *Billiard Balls of Death*; and *Dreadful About Those Shock Treatments, Eh?*

The woman was also an accomplished musician who performed guitar and baglama not only with her own group (Zooney's Lampshade) but also with the Hattiesburg Symphony Orchestra and Industrial Pole Bean Outlet; with the Palm Frond and Banana Spider Symphony Orchestra; and with the '56 Elvis Quintet at the Memphis in November: From Too Cool to Too Cold Music, Art and Law Practice Festival). There were other sides to Sarah, sides that she preferred people not know much about, sides involving Queen Victoria costumes, drinking way too many sodas at one sitting, and that whole ceramic curry serving bowl (from 2400 BCE) incident, which she knew would greatly upset anthropologists all over the world. Here, for the first time, is the entire story of Sarah Bartlett's life, including her children, her husband, her boyfriend, her shoes, her Toyota Cadberry, and her dreams (some of them involving picture frames made of cheese; some of them involving the Poky Little Puppy; some of them involving Gloria Swanson wearing a miniskirt, a pair of orange flip-flops and a T-shirt with a picture of Andy Warhol and the phrase "Hey, look, I'm a can of soup" on it; some of them involving cats with lobster claws for legs; and some of them involving copious amounts of Ranch Dressing). The book also includes over 150 illustrations, and some of them actually make sense. If you're looking for a book that offers the best ratio of cost per laugh, look no further. Further? Farther? Wait, let's think this out. Uhh, farther has an a in it, and measure has an a in it, so farther relates to distance. So, yeah, further is the right adjective to use. The Seattle Drainpipe Gazette says, "Rigatoni is to books as cat hair is to dogs." The Farmington Inquirer calls Rigatoni "unobtrusive," "mildly trapezoidal," and "looks great under some flowerpots." And the Tucson Rock Trader says, "If we crowdfund, we can raise enough money to get this author the serious help he so obviously needs. This isn't a cry for help, this is a sustained scream through a set of Peavey Dark Matter DM 118 Powered PA Subwoofer Speakers."

"Samuel Clark likes secrets. He wants to know the hidden stories of the bizarre characters on the little streets of Edinburgh, Scotland. He wants to know about a nymphomaniac, a man who lives under a bridge, a girl with a cracked face. He wants to uncover their histories because he has secrets of his own. He believes, as people do, that he is able to change. He believes, as the whole world does, that there is plenty of time to solve his problems. But Samuel Clark and the rest of the world are wrong"--

The book *Green, Energy-Efficient and Sustainable Networks* provides insights and solutions for a range of problems in the field of obtaining greener, energy-efficient, and sustainable networks. The book contains the outcomes of the Special Issue on "Green, Energy-Efficient and Sustainable Networks" of the *Sensors* journal. Seventeen high-quality papers published in the Special Issue have been collected and reproduced in this book, demonstrating significant achievements in the field. Among the published papers, one paper is an editorial and one is a review, while the remaining 15 works are research articles. The published papers are self-contained peer-reviewed scientific works that are authored by more than 75 different contributors with both academic and industry backgrounds. The editorial paper gives an introduction to the problem of information and communication technology (ICT) energy consumption and greenhouse gas emissions, presenting the state of the art and future trends in terms of improving the energy-efficiency of wireless networks and data centers, as the major energy consumers in the ICT sector. In addition, the published articles aim to improve energy efficiency in the fields of software-defined networking, Internet of things, machine learning, authentication, energy harvesting, wireless relay systems, routing metrics, wireless sensor networks, device-to-device communications, heterogeneous wireless networks, and image sensing. The last paper is a review that gives a detailed overview of energy-efficiency improvements and methods for the implementation of fifth-generation

networks and beyond. This book can serve as a source of information in industrial, teaching, and/or research and development activities. The book is a valuable source of information, since it presents recent advances in different fields related to greening and improving the energy-efficiency and sustainability of those ICTs particularly addressed in this book

Four tween girls are recruited to form the UltraSquad, a secret superhero team, with a mission to save the universe through girl power, teamwork, positivity, and justice! When an evil force from the far reaches of the galaxy threatens the Earth, four tween girls are recruited to use their magical ultra-super-girl-powers to save the universe!

The advent of small, affordable ultrasound machines and the widespread use of PACS systems have made imaging more accessible to anaesthetists and intensivists than ever before. This concise, highly illustrated text discusses the key aspects of radiology, examining all imaging modalities and body regions. Introductory sections review the imaging knowledge required for the FRCA exams and the role of imaging in the Pre-Operative Assessment. These are followed by chapters on each imaging modality and body region, each containing numerous illustrations, practical advice on diagnosis, and many case illustrations. Each modality chapter contains a concise introductory section on the principles of image formation. Containing over 300 scans and illustrations, and written by a multidisciplinary team of
