Each of the levels in Cambridge ICT Starters contains two stages. The number of modules in each level and stage is shown in the following table: At each level, learners can complete the stage 1 modules to receive a Stage 1 Certificate (for example 'Cambridge ICT Starters Stage 1 Certificate (Initial Steps)').

A complete ICT course for children from five years of age.

A complete ICT course for children from five years of age.

Help your students learn essential ICT skills, from Microsoft Office® basics to animations and websites. This series brings a fresh approach to ICT for students from 5 to 14 years old, mapped to the Cambridge ICT Starters syllabus for examination from 2019. In Next Steps, learners develop their understanding of documents and images. The resource introduces new areas - such as databases, spreadsheets and working with multimedia. Students will create articles and use spreadsheets to plan a school trip. Each activity is clearly introduced, with step-by-step guidance to help learners master new skills. Key words and visual examples support students' understanding. Download source files for activities from our website.

Cambridge ICT Starters: Initial Steps uses lively illustrations and screen displays to build and develop children's ICT skills. It shows them how to create and edit stories and poems; create pictures; produce graphs and pictograms; send, receive and reply to emails; and find out information using CD-ROMS. The activities in the book use Microsoft Office XP software, Microsoft Paint, MSWLogo, Microsoft Encarta and Microsoft Outlook Express. Benefits and features include: a close match to the content and order of the syllabus; an easy-to-follow format; learning objectives to help teachers; clear step-by-step instruction in using a computer; and stimulating fun-to-do activities. This book is to be used in the classroom with guidance from trained teachers. Materials and prepared files are available to teachers on the Danawa Resources Sdn Bhd (www.DaRes.com.my) website.

Help your students learn essential ICT skills, from Microsoft Office® basics to animations and websites. This series brings a fresh approach to ICT for students from 5 to 14 years old, mapped to the Cambridge ICT Starters syllabus for examination from 2019. In Next Steps, learners develop their understanding of email and programming. The resource also introduces them to working with multimedia. Students will create a book cover and use programming to design a shop sign. Each activity is clearly introduced, with step-by-step guidance to help learners master new skills. Key words and visual examples support students' understanding. Download source files for the

A complete ICT course for children from five years of age.

Help your students learn essential ICT skills, from Microsoft Office® basics to animations and websites. This series brings a fresh approach to ICT for students from 7 to 14 years old, mapped to the Cambridge ICT Starters syllabus for examination from 2019. On Track builds on the document, multimedia, spreadsheet and database skills learners have developed throughout the series. They'll use spreadsheets to plan a holiday and create their own database. Each activity is clearly introduced, with step-by-step guidance to help learners master new skills. Key words and visual examples support students' understanding, while tip boxes provide helpful suggestions. Download source files for the activities from our website.

Help your students learn essential ICT skills, from Microsoft Office® basics to animations and websites. This series brings a fresh approach to ICT for students from 5 to 14 years old, mapped to the Cambridge ICT Starters syllabus for examination from 2019. Initial Steps takes students through working with text, images and graphs while introducing them to email, searching and programming. They'll use search engines to help them research topics, write a group story using email and begin programming using Scratch. Each activity is clearly introduced, with step-by-step guidance to help learners master new skills. Key words and visual examples support students' understanding. Download source files for activities from our website.

On Track Stage 1 uses lively illustrations and screen displays to build and develop students' ICT skills. The book demonstrates how to create and format complex documents; plan, create and organise multimedia presentations, incorporating audio and animation effects; design and create, modify and evaluate spreadsheets and graphs; and create, develop and test databases. The activities in the book use Microsoft Office XP software and Microsoft Access. Benefits and features include: a close match to the content and order of the syllabus; an easy-to-follow format; learning objectives to help teachers; clear step-by-step instruction in using a computer; and stimulating fun-to-do activities. On Track Stage 1 is to be used in the classroom with guidance from trained teachers. Materials and prepared files are available to teachers on the Danawa Resources Sdn Bhd (www.DaRes.com.my) website.

A fun course to get young children ready to learn in English. This write-in activity book focuses on recognising, saying and writing letters: essential skills for learning to read and write confidently. Each unit includes three letters and is packed with activities that encourage children to say, trace, write and find the letter. Easily support children at all levels, with challenge activities to stretch more confident children. Each book covers one term and includes three units. Each book covers one term and includes three units.
