What was one of the most memorable moments of Critical Failures II: Fail Harder? Cooper, the Half-Orc, receives several magic enhancements to his physical strength in order to climb a large cliff and help their friend Stuart climb down more quickly. One of these buffs is a bardic song, so Chaz of course plays Eye of the Tiger on his lute.

Tim and his friends find out the hard way that you shouldn't question the game master, and you shouldn't make fun of his cape. One minute, they're drinking away the dreariness of their lives, escaping into a fantasy game and laughing their asses off. The next minute, they're in a horse-drawn cart surrounded by soldiers pointing crossbows at them. Tim now has the voice and

physique of a prepubescent girl. Dave finds that while he lost a foot or two in height, he somehow acquired a suit of armor and a badass beard. Julian's ears have grown ridiculously long and pointy. And Cooper... well Cooper has gotten himself a set of tusks, a pair of clawed hands, and a bad case of the shits. He also finds that he's carrying a bag with a human head in it - a head that he had chopped off when they were still just playing a game. Shit just got real, and if they want to survive, these four friends are going to have to tap into some baser instincts they didn't even know existed in their fast-food and pizza delivery world. It's fight, flight, or try to convince the people who are trying to kill them that they don't really exist. Meanwhile, a sadistic game master sits back in the real world eating their fried chicken.

Deeming the Whore's Head Inn no longer safe to hide in, the gang decide to take a more proactive role in their pursuit to get back to reality, or at least to keep Mordred from doing so.

In the wake of their recent loss, the Caverns & Creatures gang are left hanging. Do their choices amount to more than waiting around to die of thirst and leaping to a quicker death? Probably, or else this would have been a much shorter book.

Splitting the party is never a good idea, but sometimes that's just the hands fate deals you. On Nazere, the gang's plans are cast into the wind when a stubborn foe returns to settle a score. Back in Cardinia, Stacy has her hands full trying to help Dave while Dave does everything in his power to avoid being helped. Tim and Cooper stagger out of the desert to find themselves in a whole new world of trouble. As everyone explores new parts of this vast

fantasy world, they encounter new friends and foes... and run into some they've met before. Set sail for adventure with Galleons of Sea Men!

A smooth-talking ex-sergeant, accustomed to an easygoing peacetime military, unexpectedly re-joins the fleet and finds soldiers preparing for the strangest thing—war. The two hundred years— (and counting) peace is a time of tranquility that hasn't been seen since...well, never. Mankind in the Galactic Age had finally conquered war, so what was left for the military to do but drink and barbecue? That's the kind of military that Sergeant R. Wilson Rogers lived in before he left the fleet to become a smuggler. But it turns out that smuggling is hard. Like getting-arrested-for-dealing-with-pirates-and-forced-back-into-service kind of hard. It doesn't seem so bad—the military was a perpetual tiki party anyway—but when Rogers returns after only a year away, something has changed. These are soldiers—actual soldiers doing actual soldier things like preparing for a war that Rogers is sure doesn't exist. Rogers vows to put a stop to all this nonsense—even if it means doing actual work. With an experienced ear for military double-speak, Zieja has created a remarkable and sarcastic adventure.

If you're aiming to innovate, failure along the way is a given. But can you fail better? Whether you're rolling out a new product from a city-view office or rolling up your sleeves to deliver a social service in the field, learning why and how to embrace failure can help you do better, faster. Smart leaders, entrepreneurs, and change agents design their innovation projects with a key idea in mind: ensure that every failure is maximally useful. In *Fail Better*, Anjali Sastry and Kara Penn show how to create the conditions, culture, and habits to systematically,

ruthlessly, and quickly figure out what works, in three steps: 1. Launch every innovation project with the right groundwork 2. Build and refine ideas and products through iterative action 3. Identify and embed the learning Fail Better teaches you how to design your efforts to test the boundaries of your thinking, explore crucial interdependencies, and find the factors that can shift results from just acceptable to groundbreaking—or even world-changing. Practical instructions intertwined with compelling real-world examples show you how to:

- Make predictions and map system relationships ahead of time so you can better assess results
- Establish how much failure you can afford
- Prioritize project activities for disconfirmation and iteration
- Learn from every action step by collecting and examining the right data
- Support efficient, productive habits to link action and reflection
- Distill, share, and embed the lessons from every success and failure

You may be a Fortune 500 manager, scrappy start-up innovator, social impact visionary, or simply leading your own small project. If you aim to break through without breaking the bank—or ruining your reputation—this book is for you.

North Lawndale, a neighborhood that lies in the shadows of Chicago's Loop, is surrounded by some of the city's finest medical facilities. Yet, it is one of the sickest, most medically underserved communities in the country. *Mama Might Be Better Off Dead* immerses readers in the lives of four generations of a poor, African-American family in the neighborhood, who are beset with the devastating illnesses that are all too common in America's inner-cities. Headed by Jackie Banes, who oversees the care of a diabetic grandmother, a husband on kidney dialysis, an ailing father, and three children, the Banes family contends with countless medical crises. From visits to emergency rooms and dialysis units, to trials with home care, to struggles

for Medicaid eligibility, Laurie Kaye Abraham chronicles their access—or more often, lack thereof—to medical care. Told sympathetically but without sentimentality, their story reveals an inadequate health care system that is further undermined by the direct and indirect effects of poverty. Both disturbing and illuminating, *Mama Might Be Better Off Dead* is an unsettling, profound look at the human face of health care in America. Published to great acclaim in 1993, the book in this new edition includes an incisive foreword by David Ansell, a physician who worked at Mt. Sinai Hospital, where much of the Banes family's narrative unfolds.

NEW YORK TIMES BESTSELLER In the tradition of Paul Tough's *How Children Succeed* and Wendy Mogel's *The Blessing of a Skinned Knee*, this groundbreaking manifesto focuses on the critical school years when parents must learn to allow their children to experience the disappointment and frustration that occur from life's inevitable problems so that they can grow up to be successful, resilient, and self-reliant adults. Modern parenting is defined by an unprecedented level of overprotectiveness: parents who rush to school at the whim of a phone call to deliver forgotten assignments, who challenge teachers on report card disappointments, mastermind children's friendships, and interfere on the playing field. As teacher and writer Jessica Lahey explains, even though these parents see themselves as being highly responsive to their children's well being, they aren't giving them the chance to experience failure—or the opportunity to learn to solve their own problems. Overparenting has the potential to ruin a child's confidence and undermine their education, Lahey reminds us. Teachers don't just teach reading, writing, and arithmetic. They teach responsibility, organization, manners, restraint, and foresight—important life skills children carry with them long after they leave the

classroom. Providing a path toward solutions, Lahey lays out a blueprint with targeted advice for handling homework, report cards, social dynamics, and sports. Most importantly, she sets forth a plan to help parents learn to step back and embrace their children's failures. Hard-hitting yet warm and wise, *The Gift of Failure* is essential reading for parents, educators, and psychologists nationwide who want to help children succeed.

This is a collection of the sixth six short stories in the *Caverns and Creatures* series. It includes the following titles: *Slimes and Misty Wieners*, *Great Balls on Fire*, *Your Anus is a Gas Giant*, *Clear and Present Ranger*, *The Mimic's Chest*, *Styxian Stoners*, *May Break My Boners*. If you've already purchased all of these books, there is nothing new for you here. If you haven't yet purchased any, you can save a few bucks by buying this collection. If you've only purchased some of these already, you'll have to do some math.
