If you Google "legally stop paying income tax" noted business leader of America, Israel-Light founder Veronica Grey is the ONLY person ever interviewed on TV on this subject. Vetted for by CNN, ABC, & Fox News. YOU DO NOT HAVE TO BE A CELEBRITY to enjoy a LEGALLY tax free life. You've heard a whiff of a rumor that there's other ways to go through life as in 100% TAX FREE and LEGALLY. She has been on almost every network presenting this subject <http://www.youtube.com/TrueGreyThoughtLeader> You CAN qualify in your state as LEGALLY TAX FREE & NEVER have to deal with the federal IRS again. YOU CAN BE "FOR PROFIT" and still claim legal tax exemption: <http://tinyurl.com/TaxFreeLife> ! All you have to do to is start your own spiritual not-for-profit organization and it is SUPER EASY to do. EASIER THAN STARTING A NORMAL BUSINESS. We spell it out for you here in layman's terms. It costs you less than \$300 to file the paperwork to become tax free. We have been living this lifestyle over 8 years, LEGALLY. All the Occupy movements reveal that this country needs more freedom. Protesters keep finding someone to blame. If they would read information like this, they would have something much more constructive to focus upon that will achieve REAL results, not just some lame token like "no more ATM fees." What these people really want is to be tax free. The government knows that ANYONE who truly tries CAN BECOME your very own 100% tax exempt not for profit corporation, which is why government isn't so moved by Occupy. If I were the IRS, maybe I too would be like, "Why are they all in Zuccotti Park camping when they could be at their nearest library or public counsel offices filling out paperwork to become legally tax exempt?" God helps those who help themselves. As does government. When you connect both, you live legally tax free by serving God via Government rules. The first amendment separating church and state actually grants us freedom by unifying the two, compliantly. For those naysayers who hem and haw about us "not paying taxes" please note WE PAID TAXES EACH TIME WE BUY SOMETHING OR EAT OUT. Those taxes go to the government because the companies we pay those taxes to pay the government. So when you consider that, realize we are NOT saying you never paid ANY taxes. We are simply showing the LEGAL way to use what would have been your INCOME to help people. If you have seen stuff online about how to become a "Free Man;" reclaim your sovereignty by using freedom documents and being a secured creditor, this way is MUCH EASIER AND

FASTER. When you form a spiritual not for profit and transfer EVERYTHING you own to it, ie houses, cars, gold, stocks, etc. it ALL becomes LEGALLY non-taxable. Legal disclaimer: This book is 100% tax deductible, thereby making it a FREE gift from us to you! Simply reference our Federal EIN 61-1555550 to claim your exemption equal to the amount you "paid." When you make a "payment" it is actually a donation since we are a charity. Your donation is voluntary and without condition. Legally we can't "owe" you anything in exchange for making this donation. However, we GIFT this book to you as part of our mission to serve the masses. THANK YOU for your support and God bless America! Let us keep it land of the FREE and home of the BRAVE! Saving the best for last: Whoever coined the phrase that death and taxes are the only things we are sure of was demonic. Did you know that God's original plan is that humans never die, but live forever in an earthly paradise. Well that is a definition of heaven. Death is not inevitable. We have "proof" on <http://tinyurl.com/WealthAndWisdom> . This book is proof that taxes are not inevitable as well! WE OFFER FREE PERSONAL PHONE / EMAIL GUIDANCE to all our clients-we are the best and the ONLY ones in this business! Namaste.

"As so many Americans feel powerless to confront a financial system designed to serve the few, Shuman offers us real choices: tools that align our lives with our values. That's power. I love this highly readable, timely, surprising book." –Frances Moore Lappé, author of *Daring Democracy and Diet for a Small Planet* Americans agree on very little these days, but red state conservatives and blue state progressives can agree on one critical point: Wall Street can no longer be trusted. Yet most of us continue to invest our money in the stocks and bonds of Fortune 500 companies, transferring our capital far from where we live and work. Local investing expert Michael Shuman offers another alternative. He shows how we can use two well-established—but rarely used—investment tools to keep our money close and get a return as good as or better than what we'd get investing in distant, indifferent corporations. Shuman explains the nuts and bolts of self-directed IRAs and solo 401(k)s and how they can be combined with other recently legalized local investing tools. He details how to set these accounts up, identify and evaluate a whole range of local investment opportunities, and make sure account holders stay on the right side of the law. While the book is written for people without a lot of investment experience—Shuman explains concepts like "liquidity" and "diversification" in simple terms—even if you're as experienced as Warren Buffett, this book will make you rethink everything you know about investing. With Shuman's expert advice, you can strengthen your investment portfolio and your community, neighborhoods, and schools at the same time!

This book is the first of its kind in providing, simultaneously and comprehensively, historical, institutional and theoretical foundations for developments in the stock market. It debunks many a myth about stock price behavior and the valuation of stocks. The traditional valuation models are tested and shown to be often weak and unreliable, especially when applied to the valuation of technology stocks. New paradigms are suggested. The authors seek to answer many questions about the stock market: Why invest in stocks, how to invest in stocks, how to value stocks, how to change the risk profile of portfolios, how to analyze the results of stock investing, and how to minimize estate taxes and maximize control, even after death. All aspects of the stock market are covered, including the basic tools that will enable the reader to understand the stock market basics, the history of stock market performance in the US and overseas, the various ways to value stocks and to assess their risk, and the various methods that have been proposed to capitalize on the inefficiencies of the stock market, be they temporary or permanent. The book also deals with the derivative markets for stocks. Contents: The Fascinating World of the Stock Market: Basic Knowledge and Considerations Investment Philosophies and Techniques The Performance History of US Equity Markets US Stock Market Performance Relative to Other Instruments and Markets Balancing Risks and Returns: Three Theoretical Insights Equity Valuation How to Select Stocks: Capitalizing on Inefficiencies? A definite best seller! This is not only an essential personal development self help guide but the story of a man and women from totally different backgrounds who seek to achieve their ambitions and aspirations in life. The ideology of the co-writers is consolidated as the book cumulates in the world of television glamour and a Richard and Judy scenario, with a humorous but fact based morning television programme. There is humour in abundance but the advice and guidance remains totally professional and based on personal experience. As David Jones points out life is like a live game of snakes and ladders with all the rungs removed.

Meet David Black, a young family doc whose solo practice has spectacularly tanked. So has his marriage; the two are not unrelated. His best friend, Oz, wants him to reinvent himself, offering their fellow Boulderites everything they need to live forever (or at least long enough for Oz to profit and retire). David balks. At first. What follows is a romp of a read, a comedy with heart - from the characters who staff the new clinic to pursuit by pheromone-crazed wildlife, a real live cliff-hanger, and the love that, in the end, might just save him. Visit the exotic New-Age mecca of Boulder, Colorado, and get to know--David, hapless idealist and reluctant hero, Junie Blanche, Ph.D. candidate and New Orleans immigrant, Oz Garcia, entrepreneur and Master of Bad Habits, Shriana, organic beauty and trophy wife aspirant, Don Gilmore, hypochondriac and hemp magnate, Cyrus P. Flint, slowly expiring longevity scientist, Miss Paula and Dr. Biggs, fearsomely muscular HGH hawkers, Beatriz Hanacahuolipalipalulu, Kava Kava smuggler.....and, of course, the happy but complicated staff of the Forever Clinic: Dr. Quinn Quinn, former health guru and cross-dressing fugitive, Nancy Ouveustrasser, lonely masseuse and closet intellectual, Adeline and Thomas Thinna, starving diet & fitness pros, and Howie Krishna, Yogitation instructor and actual Real Thing. (Warning: while many local statutes prohibit the sale of How To Live Forever as a wellness and longevity guide, there remains a modest danger that the reader might inadvertently absorb one if not more aspects of its radically nonradical 'Reasonable Approach to Semi-Optimal Health'.)

Happily Ever After doesn't have to be just a fairytale anymore This book was written with the current retiree in mind. It is one of the first books to recognize that once you get that last paycheck from your employer (the last paycheck for the rest of your life), you need to start seeing your money differently. One of the biggest fears of most retirees or those preparing for retirement is that they may run out of money before they die. That fear can be greatly reduced by following the simple, easy to implement strategies and plan that Jim Black shares in this book. As a retiree, you have spent 40 years or more saving and accumulating assets for retirement. Yet a single down year in the stock market can change your retirement forever. Most retirees think that they need to choose between growth and income, or risk and return, but Jim Black will show you that those options are not mutually exclusive. Using real life examples and humor, Black has created a process that helps retirees overcome their basic fears. He has done this in a manner that anyone, regardless of their financial sophistication, should be able to implement for themselves. By reading this book and implementing the strategies, you will greatly increase your chances of retiring on your terms, and living Happily Ever After.
