This book solely focuses on the Cue Card Section of the IELTS exam. This book is divided into three sections, and each section depicts different approaches to answer the cue cards. In the first section, every topic has three answers, this section is meant to be taken as ideas only and students are advised not to cram the answers. In the second section, five questions are selected to which a single answer is provided (Yes! You can use a single answer in many situations). This section is also meant to be taken as ideas only, however, the answers are written in a story form which will help the students to form their answers in a storytelling way. In the third section, students will learn to organize their thoughts and ideas, and will also learn to craft answers to any cue card with their existing knowledge. The aim of the book is to help students who fear the speaking module of the IELTS exam. The approach used in this book is very unique and I assure you that after a thorough study of this book students will be able to speak on any topic. Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task-and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction-sets of sample questions, anchor charts, cue cards, answer frames-this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.
