## How Technology is Changing Nursing Practice for the Better

For 2017, she discusses short-term trends, which include the shift to greater interest in understanding how the use of "digital modes" of teaching is impacting students (Adams Becker et al., 2017). A Wolters Kluwer/NLN infographic shows that 82.9 percent of nursing students report that the use of technology enhances their learning. Examples of how

## Nursing Communication And Educational Technology

When it comes to nursing, many of the advances center on communication and the ability for nurses to complete their jobs accurately and efficiently. "I believe technology will continue to evolve nursing as more workplace applications—both mobile and desktop—are introduced to allow staff to better communicate with each other," says Sartor.
