Study Guide CAPS...

Life Sciences are the study of living organisms (such as plants, animals, human beings) on different levels, including their function, origin, structure, growth, and the life itself! A Master in Life Sciences delves deep into each of these levels. This field is very well developed and vast; it contains a number of topics and disciplines, the most important of them being cell theory, evolution, genetics, and energy, each of which is explored in Master in Life Sciences programs.
