The Perception of the Environment: Essays on Livelihood ...

Perception describes the multiple ways in which people receive information from their surroundings, allowing them to know their environment. Cognition, or the way people understand the environment, occurs through immediate sensory experience coupled with memories and experiences from the past. While psychologists often treat these as different phenomena or faculties, the papers in this section challenge that bifurcation.

Section 2: Human Perception and Environmental Experience ...

Public perceptions towards the UK marine environment As well as understanding and recognising the value the marine environment brings to individuals and society, we also need to understand individual/societal perceptions towards the marine environment, particularly around specific marine policy issues such as marine spatial planning (McKinley and others, 2019).
