Accountable warheads under arms control obligations differ from actual warheads. Current U.S. policy is to retain force levels at start I levels. If start II enters into force and strategic nuclear force reductions are implemented to 3,500, the only difference will be in the ratio of deployed warheads to those in reserve.

deterrence posture. 3. The relationship between U.S. nuclear deterrence policy, targeting strategy, and arms control objectives.

THE STATUS OF U.S. STRATEGIC FORCES

Starting in 1946, the U.S. based its initial deterrence force on the Strategic Air Command, which, by the late 1950s, maintained a number of nuclear-armed bombers in the sky at all times, prepared to receive orders to attack the USSR whenever needed. This system was, however, tremendously expensive, both in terms of natural and human resources, and raised the possibility of an accidental nuclear war.
