production—from painting to digital technologies to crowdsourcing—some of which would have been unheard of just a few decades ago. Yet, even as our means of making art become more extraordinary and diverse, they are almost never addressed in their specificity. While critics and viewers tend to focus on the finished products we see in museums and galleries, authors Glenn Adamson and Julia Bryan-Wilson argue that the materials and processes behind the scenes used to make artworks are also vital to current considerations of authorship and to understanding the economic and social
